

# Trading Order Types Cheat Sheet

A quick reference for common stock order types (Buy & Sell) with examples.

## Market Order:

Executes immediately at best price.

Buy Example: Buy AVGO now at ~\$330.

Sell Example: Sell AVGO immediately at market.

## Limit Order:

Executes at specific price or better.

Buy Example: Buy AVGO at \$320 (only if price drops).

Sell Example: Sell AVGO at \$350 (only if price rises).

## Stop-Loss (Stop-Market):

Triggers market order at stop price.

Buy Example: Not used.

Sell Example: Stop at \$300 to protect downside.

## Stop-Limit:

Triggers limit order at stop price.

Buy Example: Stop \$340, Limit \$345 (buy breakout, but max \$345).

Sell Example: Stop \$300, Limit \$295 (sell if falls, min \$295).

## Buy Stop:

Market buy once stop triggered.

Buy Example: Buy NVDA if it breaks \$500.

## Buy Stop-Limit:

Limit buy once stop triggered.

Buy Example: Stop \$500, Limit \$505 (buy breakout, max \$505).

## Trailing Stop:

Stop price trails by \$ or %.

Buy Example: Not used.

Sell Example: Trail AVGO by \$20 below high, locks gains.

## Trailing Stop-Limit:

Trailing stop that triggers a limit order.

Buy Example: Rarely used.

Sell Example: Trail by 5%, limit order executes at or above limit.

## IOC (Immediate-Or-Cancel):

Executes immediately, cancels unfilled portion.

Buy Example: Buy 100 shares now, partial okay.

Sell Example: Sell 100 shares now, partial okay.

**FOK (Fill-Or-Kill):**

Must fill entire order immediately or cancel.

Buy Example: Buy 100 shares instantly or not at all.

Sell Example: Sell 100 shares instantly or not at all.

**Day Order:**

Expires if not filled by market close.

Buy Example: Buy AVGO at \$320, valid today only.

Sell Example: Sell AVGO at \$350, valid today only.

**GTC (Good-Til-Canceled):**

Stays open until filled or canceled.

Buy Example: Buy AVGO at \$320, stays open weeks.

Sell Example: Sell AVGO at \$350, stays open weeks.
